

Counterweight EHZ GG-330

The counterweight GG-330 is used to weigh down the cable and provide a pivot point for the float switch. Retro fitment is possible. It is suitable for water, wastewater, oils and fats, many acids and bases.

Technical Data

- Colour: black
- Material: PA66
- Operating temperature: up to 100 °C in water
temporarily up to 150 °C
- Dimensions: 188 x30 x 26mm
- Weight: ca. 330g
- Surface resistance: $1 \times 10^3 - 10 \times 10^3 \text{ Ohm}$
